## FR-36 Fold & Roll Riser

## No other choral riser sets up as easily as the FR-36.

We have made the easiest choral riser to set up even easier. Simply roll it into place, unfold it, and the FR-36 Choral Riser is ready to help your performers look and sound their best. You'll save setup time as well as reduce the risk of back strain as the new counterbalance reduces the lift effort by 35%. Locking casters assure

your risers stay securely in place, while the self-locking assembly makes setup quick and easy. The new treads on the FR-36 have no sharp corners, and are substantially quieter, so distracting noises never become a part of your performance. Anti-fray carpet means your risers stay looking newer, longer.
